

Pitch deck 2025

Soon we built AFAI AI-Digital- Center “ADC”.. Worldwide!

**Royalísimo UG – The world's first AI
secretary for full bureaucracy
automation..**

Founder: Orhan Ayhan

Startup: Royalísimo UG

Slide 1: Vision and Mission

- **Our Vision:**

A world without bureaucratic barriers for people with disabilities.

- **Our Mission:**

We use AI to create accessible, automated administrative services – for more independence, inclusion, and efficiency.

..Is “Patented worldwide..”

The Afai-AI-Secretary..

- **Key Functionalities of AFAl:**
- Reads, fills in, and submits paper and digital forms
- Supports all types of applications: healthcare, housing, social aid, etc.
- Automatically checks contracts for illegal or unfair clauses
- Provides tailored insurance recommendations and concludes contracts
- Finds and applies for public funding and grants
- Uses voice commands for accessibility
- Translates bureaucratic language into plain language
- Integrates with health insurers and electronic records (ePA)
- Offers 24/7 AI assistance – multilingual and barrier-free
- Ensures full legal and data security through blockchain technology
- AI-powered form and application processing
- Speech and text recognition, OCR, and automation
- Accessibility via voice control and intuitive interface
- GDPR-compliant data processing with blockchain backup

Slide 2:

Status Quo & Milestones

- - Functional prototype developed
- - Partnership with the Technical University (TU)
- - Funding commitment from the Investment Bank (50% subsidy rate)
- - Clearly defined, scalable 5-pillar service structure

What Makes the Founder Exceptional?

- - “I always find a solution” and “I never give up”
- - Focus, self-confidence, and strong personal connections
- - Clear vision, clear thinking, and clear communication
- - The ability to attract people to work on the business
- - The ability to personally handle a massive workload

Slide 3:

The AFAI System

- - AI-powered form and application processing
 - - Speech and text recognition, OCR, and automation
 - - Accessibility via voice control and intuitive interface
 - - GDPR-compliant data processing with blockchain backup
- 

Slide 4:

AFAI Digital Centers – Our Operational Core

At the AFAI Digital Centers, our AI secretaries handle all bureaucratic tasks:

- - Fill out and submit paper-based applications
- - Provide insurance consulting and brokerage
- - Review contracts for risks and clauses
- - Identify and apply for funding opportunities

Customers get:

- - Best life insurance, legal protection, disability, and health insurance
- - Best contract check and public funding
- USP: 100% error-free, objective, and trusted recommendations

Slide 5: The 5 Monetization Pillars of AFAI – Overview at a Glance..

1. Paper Application
Services

2. Funding Application
Service

3. Insurance Brokerage

4. Contract Check

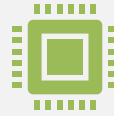

5. Contract Brokerage
(Mobile & Energy)

Slide 6:

Pillar 1 – Paper Applicati on Services

- €1.00 per application

- 10 AFAI devices × 2
clients/hour × 10h/day =
200/day

- 22 days = 4,400/month

Revenue: €4,400/month
